

To whom it may concern:

In my character of colleague of Dr Galabina Tarashoeva:

I have known her since 1989, in the 6th Congress of Group Psychotherapy Zagreb and since then I have shared different professional situations many of them in the Context of the FEPTO Federation of Training Organizations and in her visit to University Buenos Aires where she presented a very important paper .

Also I have been in Sofia, Bulgaria different times sharing her interest and work .

During all these years her activity has been ethical and very dedicated to her profession .

I want it to be known that I support her and do not believe any wrong doings on her part regarding any part of her professional work .

Dr Monica Zuretti medico, Profesora de Psicodrama Clinico , Post grado Facultad de Psicologia UBA
